President Trump to Hold MAGA Rally in New Hampshire

Tonight, the American people will hear directly from President Trump when he holds a Make America Great Rally at the SNHU Arena in Manchester, New Hampshire.

Supporters of the President have been [camped](#) outside of the arena for days.

Kayleigh McEnany on Twitter

“Meet Karen - camping out 36 HOURS BEFORE the [@realDonaldTrump](#) rally in Manchester, New Hampshire! She’s FIRS...

In Manchester, we can expect to hear the President highlight promises made, promises kept in just two and a half years in office.

Granite Staters have benefitted under the Trump Administration’s pro-growth agenda.

19,700 New Hampshire jobs added since the President was elected.

This includes 1,700 manufacturing jobs.

Since the President was elected, the unemployment rate in New Hampshire has decreased from 2.8% to 2.5% - the fourth lowest in the nation.

The last time the unemployment rate in New Hampshire was this low was 1988.

The historic Tax Cuts and Jobs Act resulted in an average tax cut of \$1,435 and generated nearly 1,000 jobs.

Food stamp recipients have declined from 93,812 to 76,113

New Hampshire cannot afford to turn back on this economic success.

The Trump Administration is Ensuring Non-Citizens Do Not Abuse Our Nation's Public Benefits

This week, the Department of Homeland Security (DHS) announced the Trump Administration is releasing a final rule that will ensure non-citizens do not abuse our nation's public benefits.

The rule will go into effect on October 15th.

This rule ensures that if migrants enter or remain in the U.S. they must support themselves and not rely on public benefits. This will save hardworking taxpayers billions of dollars.

A migrant who receives public benefits above a certain threshold is known as a "public charge."

If a migrant is found likely to become public charges they will not be allowed in the U.S.

Migrants found likely to become public charges will also be barred from adjusting their immigration status.

The rule will offer guidance on how to determine whether an individual is a "public charge." There are several exemptions:

The rule has no impact on humanitarian programs.

It exempts trafficking and domestic violence victims

The rule does not consider many areas of government assistance, such as those that protect children and pregnant women's health.

This is a longstanding law that follows precedent. In 1996 President Bill Clinton signed two bipartisan bills to help stop aliens from exploiting public benefits.

Public charge laws have been part of U.S. immigration law for more than 100 years as a ground of inadmissibility.

Migrants coming to our country should be self-sufficient.

73% of Americans are in favor of requiring immigrants to be able to support themselves financially.

We must ensure our social public benefits programs are not abused by non-citizens and our social safety nets are not jeopardized.

78% of households headed by a non-citizen with no more than a high school education use at least one welfare program.

58% of all households headed by a non-citizen use at least one welfare program.

While 202 Democrats continue to push a radical immigration policy that includes open borders and healthcare for illegal immigrants, President Trump is keeping his promise of enforcing a longstanding immigration law and will save taxpayers billions.

President Trump Is Championing American Energy and Manufacturing

This week, President Trump visited the Pennsylvania Shell ethylene cracker plant where he demonstrated his ongoing commitment to U.S. energy and manufacturing.

It's important to remember, the Pennsylvania economy is soaring under President Trump.

141,500 jobs have been added to the PA economy since the President was elected.

This includes 5,000 manufacturing jobs to the PA economy.

Since the President was elected, the unemployment rate in Pennsylvania dropped from 5.4% To 3.8%

Pennsylvanians have benefitted from the passage of the Tax Cuts and Jobs Act.

The average Pennsylvanian saved \$1,426 from the historic tax cuts.

8,693 jobs were generated in the state from the Tax Cuts and Jobs Act.

While in western Pennsylvania, President Trump addressed workers and touted his administration's pro-energy policies.

The President's agenda has allowed U.S. energy production and exports to soar.

By 2020, it is expected the U.S. will export more energy than imports for the first time in 1953.

The U.S. is the largest crude oil producer in the world.

The U.S. is trending towards becoming a net exporter of oil and refined fuels.

Since 2016, coal exports have risen more than 90%.

The U.S. is world's top producer of petroleum and natural gas.

In 2019, U.S. exports of liquefied natural gas (LNG) to the (EU) reached an all-time high.

And under President Trump the manufacturing economy is booming.

Over 500,000 manufacturing jobs have been added since the President was elected.

Manufacturing optimism is at an all-time high.

85% of blue-collar workers believe their lives are heading in a positive direction.

While Joe Biden and other 2020 Democrats continue to tell voters there is no place for fossil fuels and natural gas in our country, President Trump continues to champion American energy and manufacturing.

Gun Control Debate

Since the shootings in El Paso and Dayton, the President has:

In the strongest words condemned the attacks.

Throughout his presidency, the President has repeatedly and forcefully denounced all forms of hatred.

As the President reiterated on Monday, hate has no place in our society. We must all condemn racism, bigotry, and white supremacy.

Called on our nation to come together and act in a bipartisan manner to make our communities safer.

Acknowledged the “internet has provided a dangerous avenue to radicalize disturbed minds.”

Called on the DOJ to work in coordination with local, state, and federal agencies as well as social media companies to detect mass shooters before they act.

Encouraged our mental health laws to be reformed to help identify disturbed individuals who may commit acts of violence.

Called on “Red Flag laws” to be instituted to help stop those who pose a risk from possessing a firearm.

Directed the DOJ to propose legislation that will force those who commit hate crimes to face the death penalty.

Called on Congress to find additional bipartisan solutions that will make America safer.

The President has committed to pass concrete, bipartisan proposals that will keep Americans safe.

On Friday, the President said he believes headway is being made amongst members to propose meaningful changes to the background check process.

The President remains committed to combatting hate-fueled violence of domestic terrorism.

FBI Director Christopher Wray attested that the bureau is using all investigative techniques and methods to combat domestic terrorism.

In May alone the FBI investigated 850 domestic terrorism cases.

The FBI established the Domestic Terrorism-Hate Crimes Fusion Cell to target domestic terrorism fueled by hate.

The DOJ has launched a centralized website to educate the public on hate crimes and encourage reporting.

President Trump and his administration have taken responsible action to help stop gun violence.

FIX NICS Act – which strengthened the background check reporting system - was signed into law in 2018.

The President has called on states to adopt Extreme Risk Protection Orders. ERPOs provide authorities with a temporary way to keep firearms away from individuals who pose a threat.

The Administration banned bump stocks.

In FY2018, the Department of Justice prosecuted a record number of firearm offenses, helping to keep illegal guns off our streets and out of the hands of criminals.

The President remains a strong defender of the Second Amendment but is committed to working with Congress to take action to ensure the mentally ill do not have access to firearms and our communities are safe.

The Trump Economy is Booming

Thanks to President @realdonaldtrump:

The economy added 224,000 jobs.

The unemployment rate remains near its lowest point in almost half a century.

17,000 manufacturing jobs were added in June alone.

The labor force participation rate was 62.9%, showing American workers are continuing to come off the sidelines and enter the workforce.

Wages continue to rise – there have been 11 straight months of wage growth of 3% or higher.

With the unemployment rate of women near a 50 year low and African-American unemployment at a near record low, why does @RepX/SenX continue to obstruct President @realdonaldtrump's prosperous agenda?

Under President @realdonaldtrump, six million jobs have been created!

Under President @realdonaldtrump's leadership, the economy continues to fire on all cylinders and Americans are reaping the benefits!

While @RepX/SenX has tried to obstruct America's progress, President @realdonaldtrump has ushered our nation into a new era of greatness!

Republicans' Tax Cuts and Jobs Act boosted working class families:

Increased deductions

Expanded education savings plans

DOUBLED child tax credit

Immediately brought bonuses, raises, promotions

The Environment

Thanks to @realDonaldTrump's leadership, the U.S. designated over one million new acres of wilderness this year -- the largest public lands legislation in a decade.

President Trump is dedicated to preserving water quality in the United States and globally. Upon signing the Save Our Seas Act in 2018, the U.S. reauthorized marine debris cleanup programs and promoted international action toward purifying our oceans.

With one of the strongest environmental records in the world, the United States has taken significant steps toward reducing hazardous sites, expanding hunting and fishing access, and preventing forest fires.

Border Security

There's a crisis occurring at our southern border: nearly 100,000 migrants were apprehended or deemed inadmissible at the border in June alone!

Democrats like @RepX/SenX need to work with President @realdonaldtrump! We are still on track to reach 1 million border apprehensions this fiscal year.

President @realdonaldtrump is committed to securing the border and stopping the flow of drugs, crime, and human trafficking coming across our southern border!

The Trump administration has pledged to build over 400 more miles of the border wall by the end of 2020. Meanwhile, Democrats have voted against funding toward the border crisis over 80 times.

[.@POTUS](#) is serious about securing the southern border:

Rolling back asylum system abuse

Mexico now on board to solve the crisis

Supporting our brave ICE officials

Healthcare

Democrats' \$32 TRILLION plan would absolutely eliminate the private plans that upwards of 200 MILLION Americans have! Is this what you want, @RepX/SenX?

Despite 80% of Americans rating the quality of their health care as excellent or good, 2020 Democrats still want a radical government takeover!

Democrats' healthcare agenda is extreme, would bankrupt our country, and is totally wrong for America!

As @POTUS works toward expanding healthcare options for families, Democrats are pushing a government takeover of healthcare which includes longer wait times, higher costs, and fewer choices.

As Democrats and establishment media try to downplay President Trump's approach to healthcare, his recent executive order aims to:

bolster medical services

expand organ donation

expedite transplants

It's clear that @realDonaldTrump is committed to improving America's healthcare system.
